In Progress		139
A Finding List for Chinese, Japanese, and Western- Language Annotation and Translation of Yüan Hao-Wen's Poetry	<i>John T. Wixted</i>	140

From the Editor

The response to the questionnaires for the establishment of a new directory of Sung-Liao-Chin-Yüan scholars has been excellent. However, publication will for two reasons have to await our next issue. First, there is simply no space available in the present issue to accommodate another major item. Second, the time required to prepare all the entries for the directory has proved far longer than expected. If, incidentally, anyone would care to upgrade the information already submitted, he or she is invited to do so.

Speaking of space problems, I must apologize for the absence from this issue of two of our standard features, book reviews and book news. As publication of no.18 should follow shortly, the lack will not perhaps be felt too keenly.

As Dr. Wixted's "Finding List" is a research aid to which ready access is desirable, I have placed it at the end of the issue where one can always be sure to locate it.

A problem, quite unforeseeable, developed with our mailing labels last time, so that in some cases the issue (no.16) did not reach its destination. If you did not receive your copy and you are not significantly behind in your subscription, you should let me know.

The special contributions of the following individuals toward preparation and publication of this issue are gratefully acknowledged: Li Chu-tsing; Lee Eun-hi; Teresa Mei; Sigrid Peterson; and Isolde Tsipirovich.

C.A.P.
